

The Multirail overhead conveyor system from Runners has been carefully developed to provide effective runway solutions for hundreds of applications including spraybooths, material handling, production lines, abattoirs etc., the possibilities are endless.

Multirail

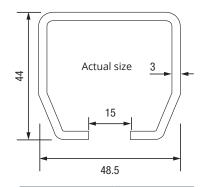

Overhead Conveyor System

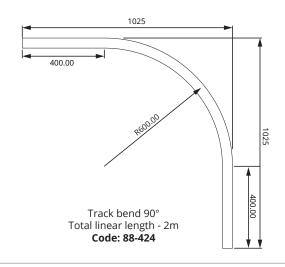

Multirail Track components

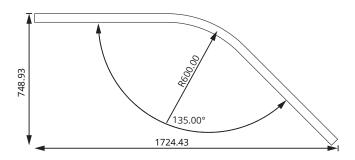

Straight track 400kg capacity per metre **Code: 88-400-3**

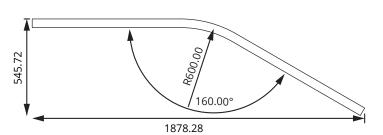

Description	Code
3m track	88-400-3
4m track	88-400-4
5m track	88-400-5

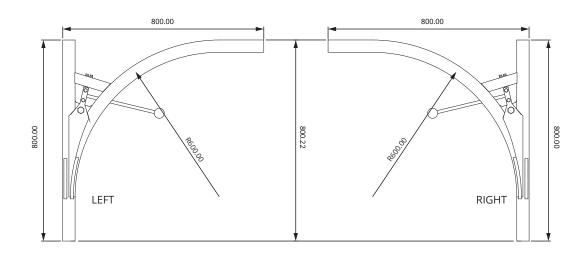

Track bend 45° Total linear length - 2m **Code: 88-425**

Track bend 30° Total linear length - 2m **Code: 88-426**

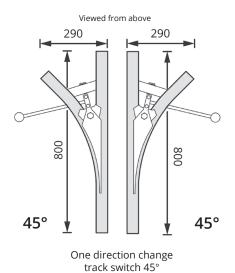

Multirail Track switches

One direction change track switch 90°

Direction	Code
Left	88-453
Right	88-454

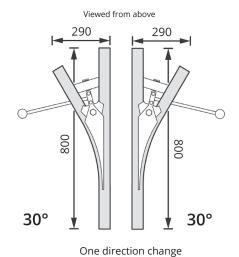

1	5	0

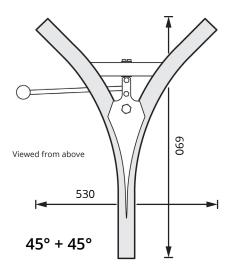

Direction	Code
Left	88-494
Right	88-495

30°

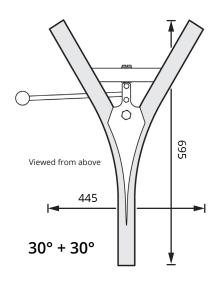

Direction	Code
Left	88-492
Right	88-493

track switch 30°

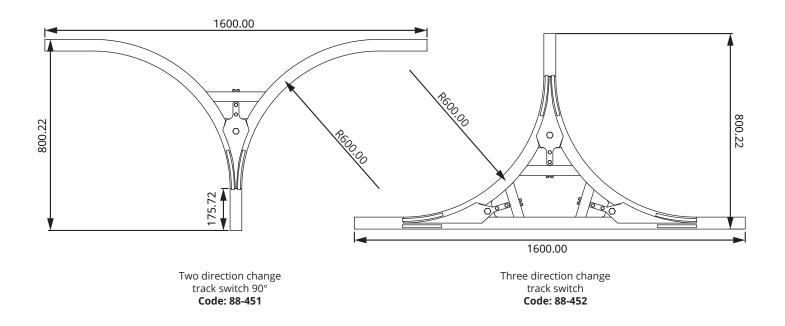

Two direction change track switch 45° **Code: 88-491**

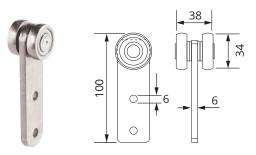

Two direction change track switch 30° **Code: 88-490**

Multirail Track switches

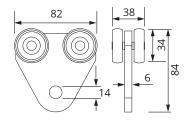

Multirail Hangers

Two wheel fixed hanger 80kg capacity **Code: 88-411**

High temperature bearing option (up to 250°C) Code: 88-411A

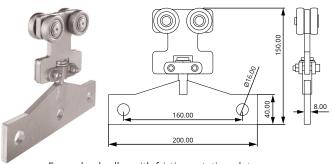

Two wheel fixed hanger 150kg capacity **Code: 88-423**

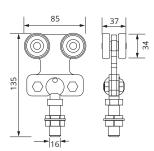

High temperature bearing option (up to 250°C)

(up to 250°C) Code: 88-432

Four wheel roller with friction rotating plate 150kg capacity Code: 88-419

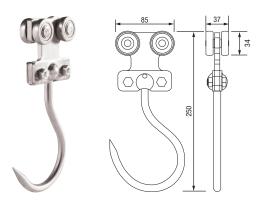

Four wheel rotating hanger 150kg capacity **Code: 88-417**

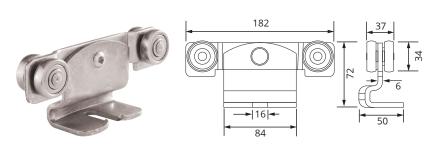

High temperature bearing option (up to 250°C) Code: 88-418 Indexing upgrade for 88-417 **Code: 88-417A**

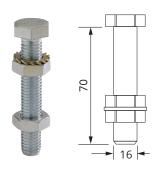

Multirail Hangers

Four wheel rotating hanger with stainless steel hook 150kg capacity Code: 88-422

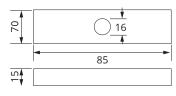

Four wheel hanger 150kg capacity **Code: 88-410**

Screw for hanger Code: 88-415

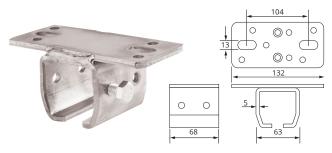

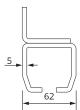

Threaded fitting for welding **Code: 88-416**

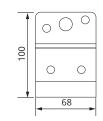

Multirail Brackets

Ceiling support bracket Code: 88-440

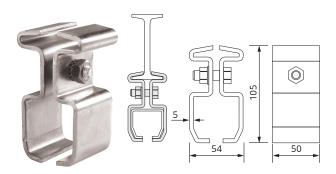

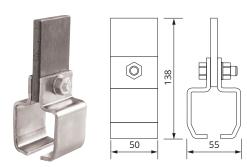

Wall support bracket **Code: 88-450**

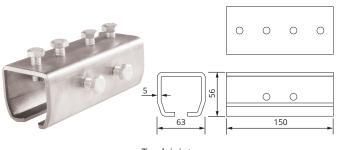

Multirail Brackets

Split suspension bracket **Code: 88-412**

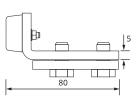

Split suspension bracket for welding Code: 88-413

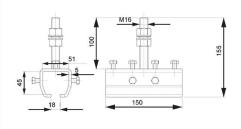

Track joint Code: 88-430

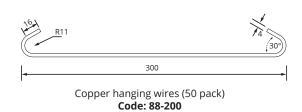

Track stop Code: 88-460

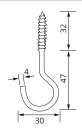

Track connector bracket on M16 stud Code: 88-431

Multirail Accessories

Screw-in Hooks (100 pack)
Code: SCT483

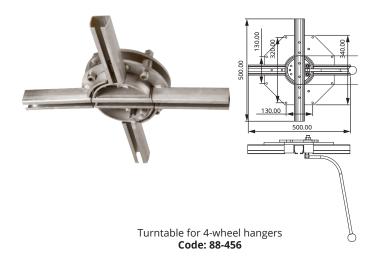

Channels & Connectors for Quick Installation

Streamline your Multirail installation with our durable channels and connectors.

Introducing multirail auto

Multirail Auto is a powered overhead conveyor with drive unit which has been developed to provide runway solutions for applications like paint spray booths, e-commerce packing warehouses, and abattoirs.

- Automated overhead conveyor system, ideal for maximising unused space near the roof.
- Provides efficient material handling, enhancing production speed.
- Operator-friendly controls allow easy stopping, starting, and adjusting from various workstations.
- Easy installation and maintenance.
- Suitable for industries like joinery, paint shops, and abattoirs, guiding products through areas like flow coaters, drying, or processing zones.
