

Series 20 Curtain Track

Single Sliding System

The Series 20 curtain track is a robust and versatile system designed for both residential and commercial applications. It features a range of profile track sizes and components that bolt together, ensuring smooth and efficient operation.

The Series 20 includes stainless steel bearings for precise and smooth action, heavy-duty galvanising for long-life performance, and heavy-duty construction to withstand rigorous use. This makes it ideal for settings requiring reliable and long-lasting curtain support.

Suitable for panels up to 90kg.

Featuring high quality components

Full technical support

Easy to fit

Smooth movement

Perfect for interior doors or over head runways
